

“Will the apartment still be available when they meet me in person?”

Telling you that the apartment is “no longer available” or that they “don’t want their insurance to get cancelled,” may be instead a landlord’s unwillingness to install grab bars and ramps.

The law protects your right to live where you want. If you feel you’ve been discriminated against because of your disability, call 1-800-669-9777.
